Getting Around SFO

Transferring from an International Flight to a Domestic Flight

All arriving international passengers must clear United States Customs and Immigration at the International Terminal Arrivals Hall. Passengers connecting to onward flights should exit the Arrivals Hall through the doors marked "Connecting Flights." A Connecting Baggage Desk, located directly outside the exit, is available to recheck baggage tagged to its final destination. Passengers not checked through to their final destination should visit their airline's ticket counter.

Getting to Other Terminals and Parking Garages

AirTrain, SFO's fully automated people mover system, operates 24 hours every day and provides convenient and frequent service throughout SFO. AirTrain stations are located in all terminals, terminal parking garages, the Rental Car Center and SFO's BART station. AirTrain does not serve SFO's long-term parking. Use the SFO parking shuttle buses located on the Departures Level roadway to access long-term parking.

Domestic Terminals 1, 2 and 3 each have an AirTrain station located on Level 5 of the Central Parking Garage. Terminals 1 and 3's stations connect to the terminals via a passenger skybridge. Take the elevators/escalators to Mezzanine-Level 3 and follow the AirTrain signs.

To access Terminal 2's station, take the elevators/escalators down to the tunnel connector to the parking garage. Follow the AirTrain signs.

The International Terminal has two AirTrain stations. A station is located one level above ticketing at each end of the Main Hall.

Getting to the Rental Car Center

To access the Rental Car Center from the Airport terminals, take the AirTrain Blue Line. Alamo, Avis, Budget, Dollar, Enterprise, Fox, Hertz, National and Thrifty car rental counters are located at the SFO Rental Car Center.
